

# Hydraulic timber trailer

Trailer dimensions	Width 1360mm x height 1500mm x length 3800mm
Loading area	Width 1250mm x height 750mm x length 2500mm x (ca 2.5m³)
Total weight	600kg
Loading capacity	1500kg
Maximum reach of the crane	3.4m
Maximum weight lifting at 3.4m	200kg
Maximum weight lifting at 1.7m	350kg
Rotator	GR10
Rotation radius	+/- 90°
Rotation radius of the rotator	infinite
Grapple area	0.08m²
Maximum opening of grapple	750mm
Oil pressure	160bar
Tyres	Low pressure tyres 22 / 11 – 8"
Coupling	360 degrees rotatory coupling for 50mm hitch ball

<b>4x4 hydraulic drive system</b>	Speed 3 –5 km/h Waterproof electric remote control	Std. on 350-II model
-----------------------------------	---	----------------------

Hydraulic drive system helps the ATV move in hard conditions like deep snow, mud or stumps.

<b>Hydraulic winch</b>	Rated line pull 800kg Speed 10 – 25m/min Remote control area 30m	Std. on 350-II model
------------------------	--	----------------------

The winch helps to pull logs closer from inaccessible and dangerous areas.  
Radio controlled hydraulic winch placed on the crane construction.

<b>Hydraulic unit</b>	7.5HP 4-stroke petrol engine Oil tank 8 litres Dimensions 350mm x 350mm x 700mm Weight 30 kg
-----------------------	---

The hydraulic unit is fastened on the front rack of an ATV or on the back of an UTV or a pick-up truck.  
Provides the necessary oil flow and pressure to operate the crane and all the accessories.

**Additional information:**  
Galvanized and powder-coated steel construction.  
2 pairs of log bolster posts in standard kit (possible to add extra log bolster posts for smaller timber).  
Log bolster posts can be moved on the main frame to adjust the load balance of the trailer.  
Suitable for transporting timber up to 5 metres of length.  
Most of the hydraulic distribution moves through the frame of the trailer, making for good protection against damage.  
Safe uploading of timber provided through hydraulic support legs.  
Complete, illustrated user / operator & CE safety instructions included.

# LOG BOLSTER POSTS KIT

Mounting additional posts allows transporting shorter logs.

<b>Material</b>	Galvanized and powder-coated steel construction
<b>Dimensions</b>	1300mm x 800mm
<b>Weight</b>	20kg

Product	Cod	
Log bolster posts kit		

# TIPPING BOX

Galvanized and powder-coated steel construction.  
The tipping box can be easily mounted on the trailer by removing the logging post on the trailer and lifting the dumper onto the trailer.  
Dumper dumpy by 2 hydraulic cylinders.

<b>Dimensions WxHxL</b>	1400mm x 400mm x 2100mm
<b>Capacity</b>	1500kg
<b>Tipping angle</b>	46°
<b>Weight</b>	200kg

For 350-II only

Product	Code	Price
Tipping box set		\$1950.00

# EARTH BUCKET

Designed to lift and dig soft soil.

<b>Capacity</b>	60 litres
<b>Weight</b>	60kg
<b>Dimensions</b>	420mm x 420mm x 560mm

Product	Code	Price
Earth bucket set		\$465.00
