

## TRACTOR LOGGING WINCHES

**Italian made quality heavy duty commercial winches.**

Our winches are powerful and tough and are strong enough to pull timber up even the steepest of forest slopes. Robustness is the main feature of our winches. Like other BALFOR products these too are painted with epoxy, so that your machine does not only remain effective over time, but also maintains their appearance.

### **BF30 3 ton pulling capacity winch**

Suitable for tractors 20-50 hp

60mx9mm cable with cast hook

Height 185cm, Width 100cm, Weight 185kg

Haul in speed 0.80 m/s
